Why Industry Leaders Rely on **HireVoTech**

 Precision Outbound Sourcing

We bypass passive job boards and actively headhunt rigorously screened candidates with proven expertise across modern stacks.

 Success-Deferred Alignment

True risk-free partnerships. Candidates and employers only pay upon confirmed job offers and verified start milestones.

 Executive Decision-Maker Outreach

Custom-crafted cold email connection notes sent directly to hiring managers to accelerate application visibility and interview loops.

 1-on-1 Interview Mastery

Comprehensive preparation covering system architecture, live coding scenarios, behavioral storytelling, and offer negotiation.

COMPREHENSIVE CAPABILITIES

Tailored Solutions for Candidates & Employers

Whether you are expanding engineering capacity or targeting a major career advancement, our structured services ensure predictable, high-impact results.

1. Technical Talent Sourcing

DIRECT SOURCING · FULL-STACK · CLOUD · AI

Building dedicated hiring pipelines for demanding technology stacks including React, Node.js, Python, Go, Kubernetes, AWS, and AI architectures.

2. Executive & Leadership Search

DIRECTORS · VPS OF ENGINEERING · CTOS

Discreet, high-touch executive recruitment for leaders who build world-class engineering culture, drive technical vision, and generate revenue.

3. Profile & Resume Optimization

ATS ALGORITHMS · LINKEDIN BRANDING · GITHUB

Reconstructing technical resumes and LinkedIn profiles to exceed ATS filters and capture hiring manager attention within the first 6 seconds.

4. Corporate Employer Partnering

RAPID SPRINTS · DEFERRED TERMS · ZERO OVERHEAD

Guaranteed 48-to-72 hour vetted candidate shortlists for technology enterprises requiring rapid scale without agency markups.

Need Scalable Technical Hiring Support?

Software Engineering

Full-Stack, Backend (Java, Go, Python, Node), Frontend (React, Next.js, TypeScript).

Cloud & DevOps

AWS, Azure, GCP, Kubernetes, Terraform, Docker, CI/CD, SRE & Observability.

AI, ML & Data

LLM Engineering, ML Pipelines, Data Engineering, Snowflake, PyTorch, BI Analytics.

PREDICTABLE DELIVERY

Our 7-Step Career Roadmap

A rigorous, battle-tested execution sequence that guides candidates from technical assessment to signing top-bracket offers.

1

Initial Consultation & Profile Audit

In-depth review of your technical background, target roles, and market compensation benchmarks.

2

Resume & LinkedIn Rebuild

Full ATS optimization and executive LinkedIn repositioning to maximize recruiter inbound traffic.

3

Direct Decision-Maker Outreach

Strategic cold pitch notes delivered directly to Engineering VPs and Director-level decision makers.

4

Daily Verified Job Submissions

Active multi-channel daily applications with diligent tracking, follow-ups, and interview booking.

5

1-on-1 Technical Mock Interviews

Intensive live practice sessions covering system design, live coding, and behavioral questions.

6

Offer & Salary Negotiation

Expert counter-offer positioning to maximize total base salary, equity, and sign-on bonuses.

7

Placement Success & Deferred Fee Settlement

Seamless onboarding support and deferred fee settlement only after you successfully start your role.

Candidate Service Plans Comparison
